

LabelManager® 210D

LabelManager® 220P

Desktop or Handheld — which label maker is right for you?

LabelManager® 210D. The new LabelManager® 210D is the perfect option if you label primarily at your desk. It's versatile, yet easy to use. The LabelManager® 210D has a large semi-graphical display, quick access keys and extra memory. A completely new user interface makes this label maker extremely easy to use.

LabelManager® 220P. If you label on the go, then the LabelManager® 220P is right for you. The new LabelManager® 220P is a portable label maker with a typewriter-style keyboard and a great option for all your labeling needs! You can operate this compact label maker with your thumbs — just like your favorite PDA.

Both are extremely user friendly thanks to the large semi-graphical display which shows you exactly how your label will print; as well as a simple keyboard and logical navigation. With its impressive range of fonts, character sizes and styles, each offers a wide variety of customizable options. You'll be making the label you want in no time!

Create distinctive custom labels for everything from safety warnings to invoice files. The result will be an unmistakable and immediate improvement in the professional appearance and effectiveness of your work environment.

LabelManager® 210D Kit

LabelManager® 220P Kit

Both label maker kits include the LabelManager® label maker with carrying case, AC adapter, 2 tapes, and 6 "AA" batteries.

Quick glance label maker features

- Prints professional quality labels on ¼", ⅜", and ½" easy-peel split-back DYMO® D1 tape. Each tape is 23" in length.
- The large semi-graphical display shows exactly how your label will print. This means no more guessing what the labels will look like. What you see is what you get!
- Large display with print preview for editing options before printing.
- Easy and intuitive navigation from start to print.
- Function keys and navigation pad are clearly identified.
- Quick access keys to punctuations and currencies.
- Diacriticals (e.g. é, à, ç,) can be entered by using the quick access key.
- Comfortably designed QWERTY-style keyboard on a hand-held label maker.
- Prints 1 or 2 lines per label (on ⅜" and ½").
- Stores up to 9 labels and offers the possibility to insert saved text.
- Last label memory recall.
- Labels can be printed horizontally and vertically.
- Alignment of your text is possible: right, center or left.
- Customize labels and add emphasis by using one of the 6 font sizes, one of the 7 styles, one of the 8 different boxes or underline.
- Allows you to create labels with a variable or fixed length.
- Prints up to 10 copies of a label.
- Multi-lingual capability.
- Auto power-off to extend battery life.

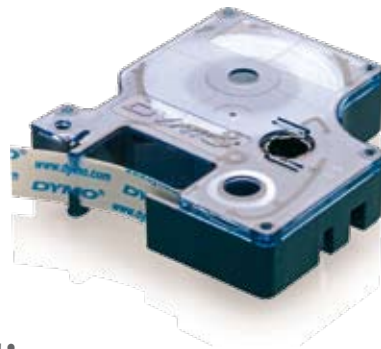

D1 labels

easy peel

Using the thermal transfer printing technology, DYMO D1 tapes are versatile no matter where labeling takes you: the office, the warehouse, retail outlet, or on the road.

D1 tapes are available in different materials to suit your needs. Polyester tapes are available in a variety of background colors, widths and text colors. Flexible Nylon tapes are suited for heavily structured, curved and/or rough surfaces. We also offer Permanent Polyester tapes that are resistant to scratches and water.

Perfect for labeling:

- File folders
- Telephone and fax equipment
- CD's – DVD's
- Cabinets
- Bookcases and Shelves
- Desktop trays
- Storage bins
- And much more...
